

SYNERGY **PHYSICAL THERAPY**

Synergy Physical therapy has been working with Medsoft for the last 7 years. When the opportunity came to switch EMR/billing companies we had the choice of going to “big Box Company” but we realized, after much research, that we needed something different, something more personal. We are a small business and we needed a company that would be there for us, to help us grow and to help us navigate an ever-changing landscape of owning a physical therapy practice. Of course, we were also looking for user friendly EMR software as well. We found all this and more, with Medsoft.

We have realized that Medsoft’s main goal is to help us be successful. Having them as part of our team has been invaluable. With Medsoft we are never alone.
